Call Book:

Hi everyone.

Callbook will be late in being available from the NZART website. As Callbook editor I apologize for this....

The biggest issues are the rejigging of the Callsigns as well as making sure the information is in the correct format, this is not a quick process to go through.

I have also experienced ill health for the past three weeks, which has created further delays in completing the task of putting together all information to send to our typesetter. It is unlikely Call Book will be available until the end of December.

During my recovery time I have been working diligently to cross check silent keys and remove them from callbook as I go. This purge of silent keys needs to be advised directly to RSM for them to remove from their Register of call signs.

As Editor I bare the responsibility here and sincerely apologize that Callbook is late. However, when you see the work I have done you will appreciate the hours I am putting into collating and ensuring accurate information is published.

Let me be clear it is the callsign part, that is taking the time to make sure I have this correct.

If you have any concerns, please email me directly on zl2drv@gmail.com
